CALL FOR APPLICANTS

ATAP HATCHER/TURNER MEMORIAL STUDENT SCHOLARSHIP

Dear ATAP Partners and Friends,

We are happy to announce that ATAP (Association of Threat Assessment Professionals) is offering once again a full scholarship to attend the National conference in Anaheim, California. ATAP is the leading professional association in the threat assessment field with a co-sponsor of the American Psychological Association's Journal of Threat Assessment and Management (JTAM). It is our mission to support our future leaders and subject matter experts in this field as well as to secure public safety by means of the multidisciplinary educational efforts.

Appreciating the importance of ongoing research and education in threat assessment and management, ATAP has supported students' efforts through the annual scholarship in memory of Chris Hatcher, Ph.D. and Jim Turner, Ph.D. Both Dr. Hatcher and Dr. Turner were influential contributors to the field and valued the education of students in the discipline. The purpose of the Hatcher/Turner Memorial Student Scholarship is to recognize and encourage the students whose work reflects a contribution and commitment to the threat assessment, and to provide an opportunity to attend and network at ATAP Threat Management Conference. This recognition welcomes them into a dynamic community that wants to sustain and nurture their interest in this evolving field of study and intervention.

Please review the attachment and encourage graduate students, undergraduate Juniors and Seniors who are conducting research or made a contribution to the threat assessment field to apply. Please feel free also to share with colleagues.

Thank you for your support and consideration.

Sincerely,

Glenn Scott Lipson, Ph.D., ABPP
Chair, ATAP Hatcher/Turner Memorial Student Scholarship

cc. Gerald Sweet, Ph.D.
